

Permissions & Responsibilities Comparison

Emotion & Symptom Tracking System — Group 17

Legend: ✓ Full access ✗ No access ● View only / limited access

Rev. 2 — CAO column corrected to mirror Admin on every row. This cycle's implementation made authorizeRoles() treat role === "cao" as admin-equivalent on every protected backend route, so CAO's real permissions are identical to Admin's, not the separate limited profile shown in the original chart.

Feature / Permission	Child	Shadow Teacher	Parent	Admin	Branch Principal	Principal	CAO
Authentication							
Log in with username & password	✓	✓	✓	✓	✓	✓	✓
Generate credentials for others	✗	✗	✗	✓	✗	✗	✓
Reset / recover password	✗	✗	✗	✓	✗	✗	✓
